Approximate

9:00 1. Committee Business

- Call to order

9:05 2. Centennial Highway Fund Program and Statewide Transportation Improvement Program Update

The Centennial Highway Fund (CHF) was used for the I-15 reconstruction project in Salt Lake County and is being used for several other major construction and reconstruction projects in the state. Through FY 2003, CHF's primary funding sources is bonding at 42% and General Fund 27%. The Statewide Transportation Improvement Program (STIP) is a five-year program of highway and transit projects designed to implement the Long Range Highway Plan. The STIP is funded through state and federal transportation dollars. What is the status of the Centennial Highway Program and the STIP? What projects are underway or completed? What projects will have to be delayed or eliminated because of the \$66.4 million reduction in General Fund dollars going to the CHF in FY 2003?

- John R. Njord, Utah Department of Transportation

9:40 3. Special Group License Plate Revisions (draft legislation)

During the June meeting, the Committee voted to have legislation drafted to consolidate, simplify, and revise the process for the approval and issuance of special group license plates. Who should pay the \$6000 startup and programming costs for each new type of special group license plates? How can startup expenses be reduced? Since the June meeting, three new special group license plates have been requested: "honorary consulate," "bomb technicians," and "public safety dispatcher." Should these plates be added? Who should pay?

10:20 4. Vehicle Impound Fee for Driving Under the Influence Cases (draft legislation)

During the September meeting, the Committee asked that a working group look at this issue and bring back recommendations on when to provide exceptions to the \$200 vehicle administrative impound fee imposed in DUI cases and on the fiscal impact of the exceptions. The current state law does not provide exceptions.
